INTRODUCTION

## TUMOUR REGISTRY

The present document reports on the 1977 Cancer Registry compiled by the Department of Tumor Registry at Siriraj Cancer Institute. The identification of

### CANCER INSTITUTE SIRIRAJ HOSPITAL

the importance of tumour registry is being increasingly appreciated. The first step towards the control of cancer is the recognition of cancer cases. The early detection and treatment of cancer is essential for the control of cancer. The early detection and treatment of cancer is essential for the control of cancer. The early detection and treatment of cancer is essential for the control of cancer.

The report includes information on the number of cancer cases registered during the year 1977. The report also includes information on the number of cancer cases registered during the year 1977. The report also includes information on the number of cancer cases registered during the year 1977.
