ISSN 00857-3840

Introduction

Faculty of Medicine, Siriraj Hospital, Mahidol university is the first medical school in Thailand which found in 1888, and consists of 25 Departments, 6 specialized centers. Siriraj Cancer Center is a center which is responsible for collaborative functions in cancer care, cancer research and cancer registry. This “Siriraj Cancer Registry 2014” is the 46th officially annual report of the hospital based cancer registration of Siriraj Hospital, since 1969. With computerized register-program, this helped to improve the work flow, efficiently. Data processing was performed by collecting and verification from medical records, pathological reports and image findings, finally proven by the ICD-O coders with medical consultants. In the year 2014, we served 2,933,369 hospital visits from 571,003 new patients which included 6,439 new cancer patients. There were some cancer patients who were treated in Siriraj Piyamaharajkarun Hospital, that we had not included in this annual report.

I would like to acknowledge the kindly support from the Medical Record Service, Medical Information Technology Service, Department of Pathology, Clinical Pathology, Microbiology, Immunology, Radiology, Surgery, Medicine, Orthopedic Surgery, Ophthalmology, Oto-rhino-laryngology, Pediatrics, Obstetrics and Gynecology, for data and medical records, as well as organizing committees and all staffs in Siriraj Cancer Center who worked together as a team. Hopefully, this report will be an useful information for improving cancer patient management.

Assistant Professor Dr. Suwanit Therasakvichya

Chairman: Siriraj Cancer Center
