Introduction

After three years of COVID-19 pandemic, it seemed that we have gradually overcome one of the worst disease burden of mankind. The suffering of patients with cancer whose their diagnosis and treatment were delayed due to shutting down of the hospitals and communities came to the end. This misery remained the good lesson to learn. To improve cancer services after COVID-19 era, new-normal way of life have to be considered and employed. The new technologies and telecommunication networks have to be utilized as the essential tools for doctor-patient access and connection. Not surprisingly, the increasing numbers of overall patients as well as new cancer patients shown in this report emerged as the result after COVID-19 battle. This year our IT officers and coders worked hard to distribute the updated information for the 54th Annual Report of Siriraj Cancer Registry. The strong teamwork and continuing support from everyone in Siriraj Cancer Center as well as our medical consultants from departments and faculty made this report possible and achieving the international standard. In the year 2022, we served 3,007,399 out-patient visits, 28.5% increasing from last year. Among those patients, 559,691 visits were new patients. Certainly 6,689 new visits of patients with cancer, 29.7% increasing from last year, were treated in the Faculty of Medicine Siriraj Hospital.

I would like to thank constant support from the Medical Record Service, Medical Information Technology Service, Department of Pathology, Clinical Pathology, Microbiology, Immunology, Radiology, Surgery, Medicine, Orthopedic Surgery, Ophthalmology, Oto-rhino-laryngology, Pediatrics, Obstetrics and Gynecology, for kindly providing us with the constructive data and info. I would like to thank members of the Siriraj Cancer Center Organization Committee and all staffs in Siriraj Cancer Center who worked hard and help each other during such a challenging situation. We should realize without doubt that how valuable our life would be. It would be very grateful if the information in this report could be used for improving the quality of service as well as the quality of life for any patients with cancer.

Associate Professor Vitoon Chinswangwatanakul MD PhD

Chairman of Siriraj Cancer Center
